Target Role: Full Stack Developer (Java | MERN)

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in both **Java Full Stack** (Java, Spring Boot, Spring Security, JPA/Hibernate, JWT Authentication) and **MERN Stack** (MongoDB, Express.js, React.js, Node.js) development. Skilled in RESTful API design, MVC architecture, Object-Oriented Programming, Data Structures & Algorithms, Database Management Systems, and Version Control (Git/GitHub), with additional exposure to Python and Machine Learning for data-driven applications. Delivered full-stack projects including a secure Java-based banking management system, a production-ready MERN e-commerce platform, and an AI-powered document verification system achieving 94% accuracy. Solved problems on coding platforms, demonstrating strong problem-solving and algorithmic skills.

PROJECTS

- **ShopSphere – Full Stack E-Commerce Platform** | **[Live Demo]** – Built a production-ready MERN Stack e-commerce platform with secure JWT authentication, role-based authorization, and RESTful APIs. Implemented complete product management with CRUD, search, filtering, sorting, pagination, image upload using Cloudinary and Multer, shopping cart, wishlist, order management, and payment gateway integration. Developed a responsive React frontend with Redux Toolkit and Tailwind CSS, following clean architecture, reusable middleware, and scalable backend design.
- **DocGuard (AI Powered Document Authentication System)** – Built an AI-powered document verification system using Python, Computer Vision, OCR, and machine learning techniques to detect forged IDs, certificates, and invoices with 94% accuracy while reducing manual verification effort by nearly 80%. Developed an automated processing pipeline with real-time folder monitoring and GPU acceleration support.
- **FinCore Banking Application (Java Full Stack)** – Developed a secure Banking Management System using Java, Spring Boot, Spring Security, REST APIs, MySQL, JPA/Hibernate, JWT Authentication, and layered MVC architecture. Implemented account management, fund transfers, transaction history, PDF statement generation using iTextPDF, API documentation with Swagger/OpenAPI, validation, and exception handling.

EXPERIENCE

Implant Trainee

05/2024 – 06/2024

Retech Solutions, Chennai

- Completed industry-oriented training focused on Data Analytics workflows, Software Development practices, Business Intelligence tools, and data visualization.
- Designed and developed a Power BI dashboard to analyze Call Center KPIs, visualize operational performance, generate business insights, and support data-driven decision making.

TECHNICAL SKILLS

Programming Languages: Java, C++, JavaScript, Python, C, SQL

Frameworks & Technologies: Spring Boot, Spring Security, Express.js, Node.js, React.js, REST APIs, JWT, JPA, Hibernate

Frontend Development: React.js, HTML5, CSS3, JavaScript, Responsive UI Development

Data Science & Machine Learning: Numpy, Pandas, Matplotlib, Seaborn, Data Preprocessing, Machine Learning Fundamentals

Databases: MySQL, DBMS, MongoDB

Tools & Platforms: Git, GitHub, Swagger, Postman, VS Code, IntelliJ IDEA, Power BI, Jupyter Notebook, Google Colab

Core Concepts: MERN Full Stack, Java Full Stack, OOP, DSA, DBMS, RESTful Web Services, MVC Architecture

KEY STRENGTHS

Problem Solving | Analytical Thinking | Team Collaboration | Time Management | Adaptability | Communication | Self-Learning

EDUCATION

B.E. Computer Science and Engineering

2023 – 2027

Saveetha Engineering College | CGPA: 8.5/10

Vidhya Vikas Matriculation Higher Secondary School

2022 – 2023

Higher Secondary Score: 90%

CERTIFICATIONS

- Oracle Database SQL Certified Specialist – 2026
- J.P. Morgan – Quantitative Research Job Simulation – 2025
- Full Stack Web Development – NSDC – 2025

ACHIEVEMENTS

- Won 1st Prize in a college-level technical event combining coding and mathematical problem-solving, competing against students across departments.
- Won 1st Prize in a UI/UX design contest, contributing the frontend implementation for the winning submission.
- Solved 433+ DSA problems on LeetCode (Top 52% globally, rating 1,477) across Java, C++, and Python.
